Arthur's Dreamboat

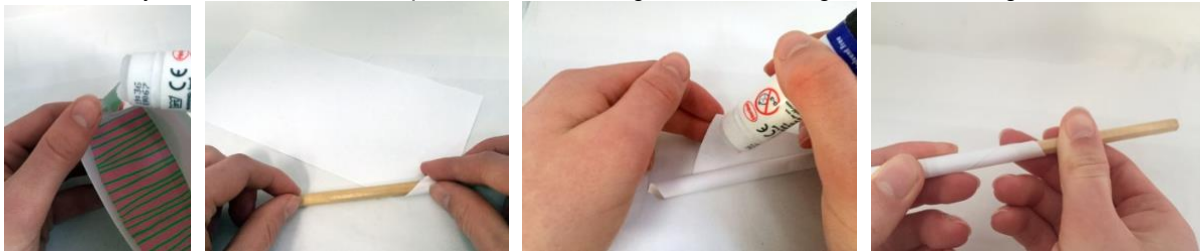

Dreamboat

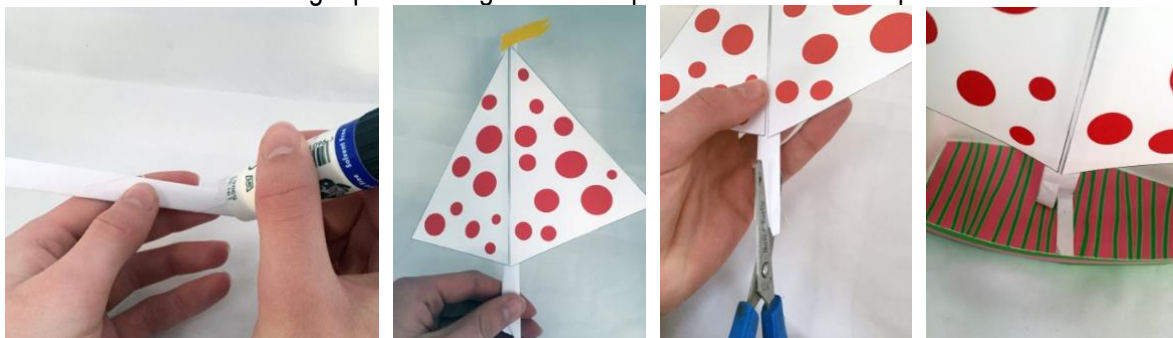

Print out the Dreamboat onto thin card or paper, then stick onto card.
Cut out all the pieces.
Fold the centre of the boat sides in half and fold in the beige line.
Snip all the way along the folded in beige line.

Glue the tabs on the inside of the boat sides and centre the boat base at the fold.
Press firmly to stick. Fold in the square ends, creasing the sides and glue the back together.

Using a strip of A4 paper, cut width-wise, make a paper stick for the mast.
Roll along a pencil and glue at the top corner. Remove the pencil.

Glue the mast and place sails and flag onto it. Snip the bottom of the mast in half.
Glue to fix onto the base of the boat.
Have fun!
