

# Hands on Happenings at Home

## SLIME

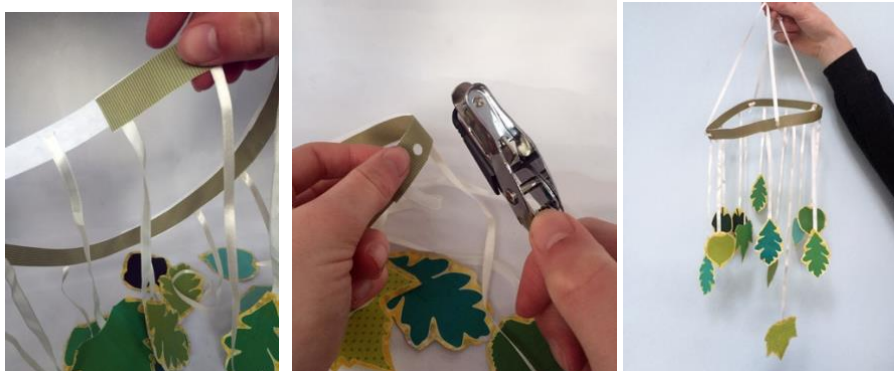

### Tasty Leaf Mobile

Print 2 copies of the tasty leaf parts onto thin card or paper. Cut out leaves and the four support strips. Cut ribbon into varying lengths, sticking an end onto the back of a leaf. Find it's opposite side and glue together.

Glue the ribbons at equal distances on two of the support strips, then join together to make a circle with ribbons on the outside. Glue the remaining support strips onto the outside. Use a hole punch to make 4 holes through support strips. Thread with ribbon to hang up your tasty leaf mobile.

Have fun!
